Re: Telecommunications Relay Services Application for Renewal of State Certification
(CG Docket No. 03-123; DA 07-2761)

Enclosed please find an electronic copy (CD-Rom) of Minnesota's Application for Renewal of the Certification for Telecommunications Relay Services (TRS). I attempted to file the recertification application under the FCC's ECFS system; however, I received the following error message:

"cgi-lib.pl: Request to receive too much data: 64862876 bytes"

On October 5, 2007, I contacted Arlene Alexander with the FCC's Disability Rights Office to inquire what options were available as Minnesota's TRS Recertification Application is too large to submit via the FCC's ECFS system. It was determined that I should submit a copy of Minnesota's TRS Recertification Application on a CD-Rom. If the enclosed CD is unusable due to being irradiated before delivery to the FCC, please contact me to discuss further options for submittal.

Also enclosed, please find Minnesota Relay outreach materials as we were not able to submit electronic versions in our TRS Recertification Application (Appendix W).

If you have any questions, or require additional documentation, please feel free to contact me.

Sincerely,

Rochelle Renee Garrow, Administrator
Telecommunications Access Minnesota

DOCUMENT OFF-LINE

This page has been substituted for one of the following:

- o This document is confidential (**NOT FOR PUBLIC INSPECTION**)
- o An oversize page or document (such as a map) which was too large to be scanned into the ECFS system.
- o Microfilm, microform, certain photographs or videotape.
- o Other materials which, for one reason or another, could not be scanned into the ECFS system.

The actual document, page(s) or materials may be reviewed (**EXCLUDING CONFIDENTIAL DOCUMENTS**) by contacting an Information Technician at the FCC Reference Information Centers) at 445 12th Street, SW, Washington, DC, Room CY-A257. Please note the applicable docket or rulemaking number, document type and any other relevant information about the document in order to ensure speedy retrieval by the Information Technician
